

The members of the Committee of Thirty-three in the city have agreed upon a modification of the Fugitive Slave Law, so as to provide for a trial in the State where the fugitive is arrested, and to prevent the removal of the fugitive to the State where he is arrested, carrying into effect the several measures which have been adopted.

General from Richmond represent that the Secessionists are gaining ground, although they are strongly opposed by both Whigs and Democrats. Leading members of the Republican and American parties are in consultation this evening, but there is little chance for a settlement of difficulties.

Several members of the Canadian Parliament are here, and the Southerners are much annoyed by reports that they are proposing an alliance with the North.

Exciting Rumors from Charleston—Resignation of Thompson. (To the Associated Press.)

WASHINGTON, Jan. 8.—Mr. Thompson, Secretary of the Interior, resigned to-day, on the ground that troops had been sent to Charleston by the steamer Star of the West, when, as he alleges, there was a distinct understanding on the 31st of December that none were to be ordered South without the decision of the Cabinet.

Rumors of an attack upon the steamer Star of the West and the cannon age of Charleston are false, creating an intense excitement. No body can give any authority for them.

It is probable that there will be another caucus of the Republican members of Congress, when the resolutions of the border State Committee will be discussed.

The report that orders have been issued by the British Government to Consul at the ports of seceding States to refuse certificates of clearance of English vessels is denied. It is said that Mr. Russell, the British Consul at Charleston, recognizes the de facto government by granting such certificates.

Agents of Southern States continue to arrive for the purpose of purchasing arms. The Government for the present refuse to sell any to the Southern States, but will sell to the State or private parties for the North-to-morrow to procure arms, although it is said the supply there is not abundant.

From the Tribune's correspondence of Jan. 8.

The important post of Pensacola, Florida, is now well guarded. There is one company of infantry, with two vessels of war, at that station. Key West also has a high military importance, and the key of the Gulf of Mexico, is occupied by a strong force to protect it against any attack the revolutionists can make upon it. Hampton Roads, the other naval station in the South, is likewise in a secure position.

A sergeant who was left at Fort Moultrie after Mr. Anderson transferred his command, has arrived here, where he went up to Charleston from Sullivan's Island, he was promptly arrested and taken before a magistrate. As no complaint could be lodged against him, he was released, but almost immediately he was arrested and taken before a magistrate. He was released, but almost immediately he was arrested and taken before a magistrate.

THE EVENING POST. The oldest Democratic Political Journal in the City of New York.

Now in the fifty-ninth year of its existence, it contains all the essential elements of a complete and reliable newspaper. It is devoted to the support of the Democratic Republican Party, when it is in power, and to the exposure of its enemies when it is out of power.

THE DAILY EVENING POST, which is printed on a large sheet, contains a full and complete account of the day's events, and is published daily, except on Sundays and public holidays.

THE WEEKLY EVENING POST is published on Wednesdays, and contains a full and complete account of the week's events, and is published weekly, except on Sundays and public holidays.
